

multiple power cords

Descriptions & Requirements

Cut Sheet #2293

-1LC
SINGLE POWER CORD

Requires 1 constant or switched power outlet. Dimming control knob is on illuminator housing.

-2LCN
DUAL POWER CORDS

Requires 1 constant or switched power outlet for fan. Requires 1 switched power outlet for color wheel control.

-2LCD
DUAL POWER CORDS

Requires 1 constant or switched power outlet for fan. Requires 1 dimmed power outlet for lamp control.

-3LC
TRIPLE POWER CORDS

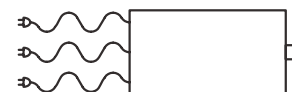

Requires 1 constant or switched power outlet for fan. Requires 1 switched outlet for color wheel control. Requires 1 dimmed power outlet for lamp control

GENERAL NOTES:

-2LCD, -3LC, -3LCD – if switched outlet is used for fan, logic must be added to system to ensure fan is always turned on whenever lamp is in use.

-3LCD
TRIPLE POWER CORDS

Requires 1 constant or switched power outlet for fan. Requires 1 dimmed power outlet for lamp #1 control. Requires 1 dimmed power outlet for lamp #2 control.
